## FIREWARDS' REPORT.

(For the year ending February 15, 1915.)

Your firewards report as follows:

Merrimack engine, No. 1, in about the same condition as per last report.

There are 950 feet linen hose in good condition, and 450 feet linen jacket rubber hose in poor condition. There is one Babcock fire extinguisher in poor condition, two Keystone fire extinguishers in good condition, firehooks, one twenty-foot, one twenty-two foot, and one twenty-four foot ladder, shovels, pails, lanterns and rubber coats.

The company has responded to four fires: two at Ethel Putnam's house, one at Town Hall, and one small fire at the Goodell Cutlery Shop.

The firewards formed a Hose company, taking the members from the fire company, and they did excellent service at the Putnam fire. They practiced every Monday night for twelve weeks.

We would recommend that the town buy a light hose wagon for the use of the hose company, also 500 feet of new cotton hose, standard size.
